- ▶ **Personalized training** to ensure you get the most out of your service
- ▶ **Around the clock** support from our US-based call center

Providing a professional experience when your customers call is critical – it can be the difference between winning or losing business. Whether you're a Fortune 500 company or the corner store, you should have access to state-of-the-art features and functionality in your communications. Wave Hosted Voice delivers you a best-in-class phone system at an incredibly attractive price.

## Why Choose Wave Business Hosted Voice?

Hosted Voice is a cloud-based Voice over IP phone system that delivers best in class capabilities at a fraction of the cost of a traditional phone system. Everything you need is included – phones, equipment, installation and support.

Advanced features and easy administration via a web portal makes Hosted Voice the last phone system you'll ever need to buy.
